

NooJ_TR_v01b

includes four dictionaries, an inflectional grammar, a morphological grammar and a sample text.

The dictionaries

(*LEX_content_TR.nod*, *LEX_function_TR.nod*, *LEX_multiword_TR.nod*, *LEX_names_TR.nod*)

include pre-tagged root forms extracted from texts in Turkish National Corpus.

The inflectional grammar

(*phonology.nof*)

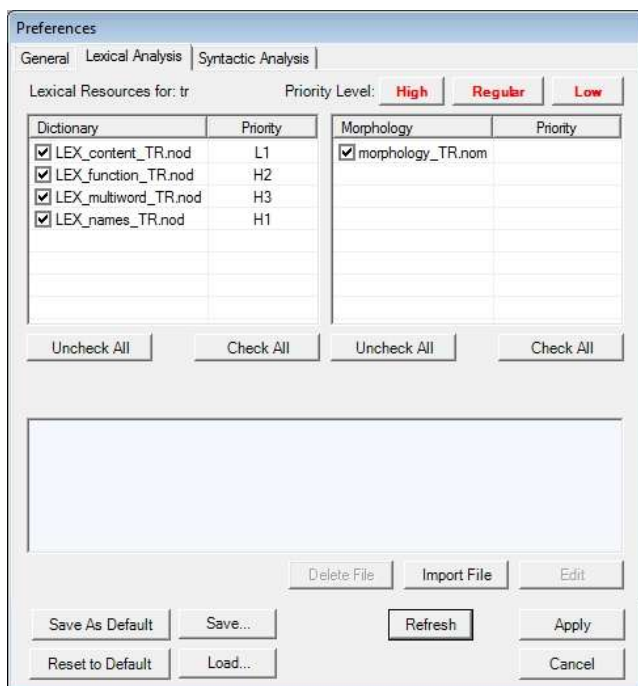

includes the in-root phonemic alternations of the lemmas in the dictionaries.

The morphological grammar

(*morphology.nom*)

covers over 180 derivational and inflectional affixes of Turkish.

Please don't forget to set the priorities as follows
before using the module
to get more accurate annotations.

For further documentation on the module see www.tudd.org

For Turkish National Corpus Project see www.tnc.org.tr

As a part of the ongoing Turkish National Corpus project,
NooJ_TR is prepared

by

Ümit Mersinli

under supervision of

Prof. Mustafa Aksan

Prof. Yeşim Aksan

in cooperation with

Asst. Prof. Dr. Aygül Uçar

Instructor Yılmaz Yaldir

Lecturer Özlem Kurtoğlu

Res. Asst. Seda Öz

Res. Asst. İpek Yıldız

and

all other members of the TNC team.

Feel free to send your suggestions, comments, error reports etc. to
